HOW TO WEAR KEY LOOKS NOW

Havva Mustafa, 31, shoe designer, on why she loves the classic T-shirt

"My style is pretty laid-back in general – I'm a real jeans-and-tee kind of girl – and I have tons of T-shirts. They're so versatile. I tend to stick to a neutral palette and love to dress them up with shoes and accessories – I have a huge jewellery collection."

THE BAND TEE

"I love these. This one has Kid Rock on it. Paired with a cool suit, it makes it less formal. I like to wear tees a little bit oversized so I can tuck them in. This is the perfect daytime look for me, but would also be great for dinner with friends."

THE SLOGAN TEE

"This is exactly how I dress most days: great denim and a statement tee. The slogan tee trend is still going strong, and it's a great way of being a little tongue-in-cheek with your wardrobe. The ankle boots are a neutral, transitional colour that will take you from summer to autumn without the heaviness of black. I'd swap the boots for a pair of really high heels to wear this look into the evening."

THE PLAIN WHITE TEE

"This is an essential in every wardrobe. It's the perfect partner for a high-waisted denim pencil skirt, which gives a flattering feminine silhouette. Add a couple of statement bracelets and you're good to go."
